ACA GENERATIVE AI

ENGINEER COURSE

Get a skills boost with our
new GenAI offering, Pg. 08

“

**THROUGH ALIBABA CLOUD ACADEMY,
WE EMPOWER INDIVIDUALS WORLDWIDE
WITH THE SKILLS AND KNOWLEDGE
ESSENTIAL FOR SUCCESS IN THE DIGITAL AGE.**

”

Selina Yuan

Vice President of Alibaba Group,
President of Alibaba Cloud International

PREFACE

As avid watchers of the techscape's ever-evolving narrative, the past year has blown everyone away with the unfolding saga of generative AI. Alibaba Cloud's Tongyi family of AI services and innovations have become crowd favorites that captured the hearts and imaginations of businesses and public alike.

Several innovations inherent within Generative AI technology have obvious potential benefits for businesses. Large language models (LLMs) have broken the limits of what we thought possible with classical AI. Users can interact with Generative AI tools like they would with another human and receive responses not only in natural language, but also according to their needs, generate a range of new responses that include text, images, code, video, and more.

And it's not just businesses that are seeing opportunities from this wave of technological advancement. Pre-trained models have lowered the technological barrier, democratizing this once hard-to-obtain technology to the masses and opening up a new world of possibilities.

With this wave of advancement, we at Alibaba Cloud Academy have also seen an uptick of requirements not only in training requirements for Generative AI technology, but also cloud computing technology, particularly in the cloud infrastructure and cloud native fields - both of which provide the power, scalability, and flexibility for applications looking to leverage Generative AI technologies.

As such we've updated our course catalog to fit with today's new expectations. Take your time, and enjoy all we have to offer. _

WHO WE ARE

WANT TO UNLOCK YOUR POTENTIAL CAREER IN CLOUD AND AI? ALIBABA CLOUD ACADEMY CAN HELP

Ignite Skills, Spark Careers

The advent of **Generative AI** has further accelerated the adoption of cloud-native technologies as businesses look to harness the power of AI to gain an edge over each other in today's rapidly evolving world. As the saying goes, with every new challenge comes bountiful opportunities. Businesses are now more motivated than ever to migrate to the cloud, and they are in need of capable digital talents to manage their workloads.

Alibaba Cloud Academy, the training & certification arm of Alibaba Cloud, provides a wealth of training resources to help customers, partners, and individuals to acquire essential skills or upskill themselves with the latest cloud and AI skills to thrive in the Age of AI. With **over 300 training courses, over 250 hands-on labs, and 17 professional certifications**, Alibaba Cloud Academy offers resources to cater to any level of technological proficiency.

Learning materials are available as on-demand courses that anyone can take online, as well as live virtual classrooms and in-person classes with our team of experienced trainers and professionals that offer a unique blend of experiences with each class. Of course, we also know that theory is not everything, that's why our courses also come with hands-on labs that provides the much-needed practical component.

Last but not least, Alibaba Cloud Academy also provides specialized training courses to our customers and partners who are looking to deepen their cooperation with Alibaba Cloud. From gaining the necessary skills and knowledge of Alibaba Cloud services, to integrating and delivering services based on Alibaba Cloud, we've got you covered. _

Learn more about Alibaba Cloud Academy at edu.alibabacloud.com

WHY CHOOSE US? _

THE JOURNEY OF A THOUSAND MILES BEGINS WITH A SINGLE STEP

And we're right here to help you embark on your journey

Expert instructors

We've assembled an expert team of highly certified instructors that are adept at delivering world-class in-person and virtual classrooms to customers, partners, and individuals alike. In 2023, our instructors delivered courses to over 100,000 participants with an **average rating of over 4.8**.

Extensive content catalog

Our dedicated online learning platform is home to a vast library of content ranging from basic technological concepts, to cloud computing, to Generative AI. You'll find courses to help you at every step of your cloud journey, regardless of experience. The best part? **Over 180 of those courses are offered for free.**

Immersive labs

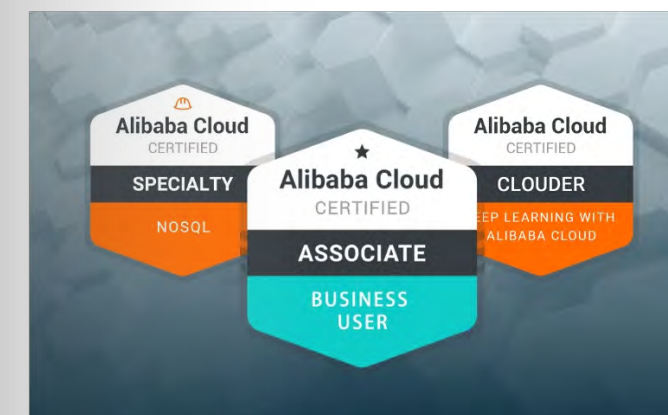

At Alibaba Cloud Academy, we understand that practice makes perfect. Aside from exciting courses, we also provide over 200 hands-on labs based on real-world scenarios to help our students learn by practice. What better way to level-up your cloud skills with real, hands-on experiences?

Professional certifications

Choose from our curated selection of **17 role-based professional certifications** in the **Alibaba Cloud Certified series** (Associate, Professional, Expert) to kick start your cloud journey and become an industry recognized expert in cloud computing. Stay ahead of the curve and prepare yourself for the most demanding positions in IT.

Membership & students program

Education is an investment in the future, and we believe that future should be accessible for everyone. Our membership program offers a large portion of our content for a reasonably low price, and our students program helps students gain a foothold in today's competitive job market for no cost at all. _

65,000+

The number of certifications issued in 2023 by Alibaba Cloud Academy

CERTIFICATIONS FOR EVERY STEP OF YOUR CLOUD JOURNEY

From beginners to experts, business users to cloud architects - we've got it all

Alibaba Cloud Academy offers three types of industry recognized certifications - Professional, Specialty, and Clouder. Each of these certifications help individuals who gain them demonstrate their technical proficiency in specialized fields, including cloud computing, big data, cloud-native technologies, AI, and more.

After taking the corresponding courses, individuals can attempt the certifications to validate their knowledge in fields related to the certifications. These certifications provide an opportunity for individuals to improve their skills, accelerate career growth, and gain a competitive edge in the job market. _

ALIBABA CLOUD ROLE-BASED CERTIFICATIONS

ALIBABA CLOUD CERTIFIED ASSOCIATE

EQUIP YOURSELF WITH THE LATEST SKILLS AND
KNOWLEDGE IN GENERATIVE AI WITH ALIBABA CLOUD

Generative AI is changing the landscape of how businesses and individuals consume technology. **98% of global executives** agree AI foundation models will play an important role in their organization's strategies in the next 3 to 5 years.

GENERATIVE AI ENGINEER

**LEVERAGING THE POWER OF FOUNDATION MODELS —
WHETHER THEY ARE LLMs OR IMAGE GENERATORS
HAVE BECOME ESSENTIAL IN TODAY'S COMPETITIVE JOB MARKET**

IMAGINE

Explore the vast possibilities of Generative AI, and how people have been leveraging this new piece of technology to its full extent. Understand the benefits (and drawbacks) of such world-changing technologies, and **unleash your imagination!**

LEARN

Get a closer look into how we got to Generative AI, and gain a deeper understanding into how these technologies evolved to become what it is today, and what it can become tomorrow. **Learn how you can leverage Generative AI to augment your workflows.**

APPLY

Learn about the services provided by Alibaba Cloud for Generative AI, and build and deploy your very first basic GenAI application on Alibaba Cloud. **Apply your knowledge to real-world scenarios!**

Generative AI in action:

A combination of prompt tuning coupled with parameter tweaks achieve stunning results, generated in just a few minutes.

ACA GENERATIVE AI ENGINEER COURSES _

COURSE NAME	DUR.	DESCRIPTION
Dive into Generative AI	1.0 hrs	<ul style="list-style-type: none"> History & types of AI, typical use cases GenAI capabilities, quick intro to LLMs Underlying tech stack
The Large World of Language Models	2.0 hrs	<ul style="list-style-type: none"> LM history & evolution, and the types of GenAI (current & emergent) Scaling laws & how it relates to model performance Pretraining, tuning, and applications of GenAI
Using Generative AI Ethically & Responsibly	2.0 hrs	<ul style="list-style-type: none"> Takes a look at the promise of GenAI and why its attractive, and discusses the reality of such a future and the risks it presents. How jobs will be re-imagined through GenAI, and what safeguards we should put in place
The Inner Workings of Generative AI	4.0 hrs	<ul style="list-style-type: none"> Learn about the intricacies of what makes GenAI tick - from machine learning to natural language processing Learn about the underlying technologies including encoders, decoders, and transformers Learn about diffusion models and how they play an important role in image generators
Make GenAI Work for You	4.0 hrs	<ul style="list-style-type: none"> Understand how you can get the most out of GenAI applications Understand concepts in leveraging GenAI, including RAG, agents, vector databases and more For the more artistically inclined, learn about some useful Stable Diffusion workflows
Deploying GenAI Applications on ECS	4.0 hrs	<ul style="list-style-type: none"> Learn about GPU-equipped ECS instances and how to select suitable instances to run your GenAI workloads Deploy open source GenAI applications on ECS
Deploying GenAI Applications on PAI	4.0 hrs	<ul style="list-style-type: none"> Learn about Platform for AI and how it lets you run scalable Generative AI applications on the cloud via DSW, EAS, and DLC Deploy open source GenAI applications on PAI
Prompt Engineering Fundamentals	2.0 hrs	<ul style="list-style-type: none"> Learn about prompt engineering for GenAI models - from zero-shot to few-shot to chain-of-thought prompting Learn about prompting techniques for Stable Diffusion

For pricing information, bookings, or general inquiries about Alibaba Cloud training sessions, contact us at intl_training@list.alibaba-inc.com

PROFESSIONAL CERTIFICATION

17 PROFESSIONAL CERTIFICATIONS ACROSS 3 LEVELS OF PROFICIENCY

Associate, Professional, Expert

ALIBABA CLOUD CERTIFIED ASSOCIATE (ACA)

This certification is designed for entry-level engineers and associates who are just beginning their cloud journey. The ACA certification exam serves to validate their knowledge of core cloud computing concepts and is offered for 9 job roles:

- ACA Business User
- ACA Cloud Computing
- ACA Generative AI
- ACA Developer
- ACA Big Data
- ACA Systems Operator
- ACA Cloud Native
- ACA Cloud Security
- ACA Database

ALIBABA CLOUD CERTIFIED PROFESSIONAL (ACP)

This certification is designed for mid- to senior-level cloud professionals, developers, and operators who are looking to deepen their cloud expertise and gain more in-depth knowledge about Alibaba Cloud services. We provide 6 ACP certifications for different job roles:

- ACP Cloud Computing
- ACP Cloud Networking
- ACP DevOps Engineer
- ACP Big Data
- ACP Cloud Security
- ACP Container Service

ALIBABA CLOUD CERTIFIED EXPERT (ACE)

This certification is designed specifically to validate the skills and knowledge of the most senior developers and cloud architects in developing solutions using Alibaba Cloud services. We provide 2 ACE certifications:

- ACE Cloud Computing
- ACE Big Data

SPECIALTY CERTIFICATION

DEMONSTRATE YOUR EXPERTISE IN TECHNOLOGY VERTICALS

Specialty certifications test the true depth of your knowledge in vertical fields

This family of certifications are designed for individuals looking to position themselves as trusted advisors and experts in specialized fields such as cloud security, networking, DevOps, and machine learning. Individuals choosing a particular career path can broaden their domain knowledge and gain credibility for their technical expertise via these certifications. Alibaba Cloud provides 7 specialty certifications to help individuals affirm themselves as experts in specific domains. _

CLOUDER CERTIFICATION

EASILY CONSUMABLE POINTS OF KNOWLEDGE

The Clouder series provides a quick-and-easy way to gain new knowledge

These certifications help individuals and businesses learn how to perform specific operations using Alibaba Cloud products and solutions, such as cloud migration, server setup, and database backup and recovery. To pass the Clouder certification exam, individuals can participate in 30 to 60-minute Clouder courses on pertinent topics, such as elastic computing, networking, and big data analytics, via the Alibaba Cloud Academy online platform. _

For pricing information, bookings, or general inquiries about Alibaba Cloud training sessions, contact us at intl_training@list.alibaba-inc.com

SALESFORCE ON ALIBABA CLOUD

In December 2023, Salesforce and Alibaba Cloud announced the general availability of Salesforce Sales Cloud, Salesforce Service Cloud, and Salesforce Platform on Alibaba Cloud. These services serve to help overcome challenges unique to China, including regulatory, market dynamics, and performance of cross-border access. Alibaba Cloud Academy is proud to deliver content for customers looking to level up their Go China strategy with Salesforce on Alibaba Cloud. _

COURSE NAME	DUR.	DESCRIPTION
Salesforce Road to China Series	4.0 hrs	<ul style="list-style-type: none"> Understand the landscape of MNCs in China Learn about building your Customer 360 for China Learn about deploying your business to China and the migration strategies at your disposal Learn how to procure Salesforce in China
The Salesforce Admin Role for Beginners	2.0 hrs	<ul style="list-style-type: none"> Understand the Salesforce Administrator role and what is expected from professionals in this role Learn about the four "core habits" that Salesforce Admins should possess to succeed in their roles
Salesforce Platform Basics	1.0 hrs	<ul style="list-style-type: none"> Get acquainted with and familiarize yourself with the Salesforce platform and its architecture Navigate through the platform and discover basic use cases Understand how to setup your homepage as an Admin and customize it to your preferences
Managing Users on Salesforce on Alibaba Cloud	2.0 hrs	<ul style="list-style-type: none"> Learn about user identities on Salesforce for Alibaba Cloud Learn how to set up users and implement permission control Manage the data that users can view or edit
Managing Data in Salesforce on Alibaba Cloud	2.0 hrs	<ul style="list-style-type: none"> Learn how to give your data structure with Salesforce-specific concepts, including objects, fields, and relationships Learn how to import and export data in Salesforce on Alibaba Cloud
Security Basics for Salesforce on Alibaba Cloud	2.0 hrs	<ul style="list-style-type: none"> Understand the security risks inherent to any business on the cloud Learn how to educate your users about security on Salesforce on Alibaba Cloud Learn how to configure security settings for your use case Learn how to set up scans to ensure the effectiveness of your security configurations
Reports & Dashboards on Salesforce on Alibaba Cloud	2.0 hrs	<ul style="list-style-type: none"> Learn about and understand Lightning Experience Learn how visualize key business metrics by using Lightning Experience Learn how to create reports in Lightning Experience

We are continually updating our course contents for Salesforce on Alibaba Cloud. Stay tuned for more information regarding our courses.

LEARNING WITH ALIBABA CLOUD ACADEMY

LET US GUIDE YOU THROUGH YOUR CLOUD JOURNEY

And unlock your potential within

Alibaba Cloud Academy training courses cover a diverse range of topics, including Cloud Computing, Big Data, Security, Artificial Intelligence, IoT, and more. This chapter contains a detailed list of all the Alibaba Cloud online and offline training courses, along with the learning paths for our customers and partners, including Key Accounts, Channel Partners, Independent Software Vendors (ISVs), Managed Service Partners (MSPs), Small and Mid-sized Enterprises (SMEs), and Individual Developers. Our courses cater to learners of all levels, from beginner to expert, and offer flexible learning options, from free digital courses and professional certification exam preparation courses to instructor-led classroom training. Almost all courses are bundled with hands-on labs to provide practical experience through simulating real-world scenarios. _

PROFESSIONAL CERTIFICATION TRAINING

Alibaba Cloud Academy offers 11 professional certification exam preparation courses to help our students gain the knowledge and skills necessary to pass the Alibaba Cloud ACA, ACP, and ACE professional certification exams. These video courses are prepared and taught by Alibaba Cloud Academy experts, providing in-depth insights into the features and workings of Alibaba Cloud services.

COURSE NAME	DUR.	DESCRIPTION
ACA Business User Exam Prep	3.0 hrs	<ul style="list-style-type: none"> Grasp the fundamental concepts of cloud computing Acquire comprehensive knowledge of Alibaba Cloud core services with real-life examples Develop a solid knowledge base to excel in the ACA Business User Certification exam
ACA Cloud Computing Exam Prep	6.0 hrs	<ul style="list-style-type: none"> Grasp a solid understanding of Alibaba Cloud Compute, Storage, Networking, and Security products Develop a strong foundation to clear the ACA Cloud Computing Certification exam
ACA Database Exam Prep	7.0 hrs	<ul style="list-style-type: none"> Fully understand Alibaba Cloud database products and services, including ApsaraDB and AnalyticDB Understand various aspects of database technologies, including relational database management and data warehousing Build a solid foundation to thrive in the ACA Database Certification exam
ACA Cloud Native Exam Prep	7.0 hrs	<ul style="list-style-type: none"> Learn how to use Alibaba Cloud Container Service and Container Registry Service to build and deploy cloud-native applications and security solutions Get comprehensive knowledge of cloud-native fundamental concepts, cloud cost optimization, observability, and resource orchestration Enhance your likelihood of passing the ACA Cloud Native Certification exam
ACA Big Data Exam Prep	10.5 hrs	<ul style="list-style-type: none"> Understand the core functions and use cases of Alibaba Cloud big data products, including MaxCompute, DataWorks, QuickBI, and E-MapReduce Develop the essential skills and practical knowledge to excel in the ACA Big Data exam
ACA Systems Operator Exam Prep	2.5 hrs	<ul style="list-style-type: none"> Understand the fundamental concepts of cloud computing, including cloud infrastructure deployment, provisioning, fault tolerance, and cloud governance Learn how to rapidly build, deploy, and manage applications on Alibaba Cloud Build a robust knowledge base to pass the ACA System Operator Certification exam
ACA Developer Exam Prep	2.0 hrs	<ul style="list-style-type: none"> Learn how to rapidly build, manage, and deploy applications on the Alibaba Cloud Understand how to perform application monitoring, debugging, optimization, access control, and data storage management on the cloud Stay well-prepared for the ACA Developer Certification exam
ACP Cloud Computing Exam Prep	7.0 hrs	<ul style="list-style-type: none"> Obtain complete knowledge of core Alibaba Cloud products and services, including ECS, SLB, OSS, RDS, Auto Scaling, and Security Center Learn how to build enterprise solutions using Alibaba Cloud core products and services Achieve success in the ACP cloud computing certification exam
ACA Cloud Security Exam Prep	3.0 hrs	<ul style="list-style-type: none"> Learn the functionalities, benefits, and use cases of Alibaba Cloud security solutions, including Security Center, CloudMonitor, Anti-DDoS, Key Management Service, and Web Application Firewall Develop a solid foundation to pass the ACP Cloud Security Certification exam
ACA DevOps Exam Prep	6.0 hrs	<ul style="list-style-type: none"> Learn how to accelerate application development and deployment on the cloud using Alibaba Cloud DevOps tools and best practices Understand the core features of Alibaba Cloud ACK, Log Service, ActionTrail, and Container Registry Improve your prospects of passing the ACP DevOps Engineer Certification exam
ACA Container Service Exam Prep	4.0 hrs	<ul style="list-style-type: none"> Gain complete knowledge of cloud-native technologies, including Docker and Container Understand the architecture and functioning of Alibaba Cloud container solutions, including Container Service for Kubernetes and Service Mesh Learn the essential skills to smoothly pass the ACP Container Service Certification exam

BOOTCAMPS & WORKSHOPS

Alibaba Cloud Academy offers specialized bootcamps and workshops for groups of 20 and above. Each bootcamp starts from 3 days, and workshops start from 1 day. These intensive sessions can be tailored towards your requirements, especially towards a particular Alibaba Cloud service, solution, or domain.

Bootcamps and workshops offer a unique experience focusing on intensive learning experiences blended with a healthy and exciting mix of hands-on labs. Aside from the usual trainers, you'll also get a chance to meet with tech experts and solution architects from Alibaba Cloud, and gain first-hand experience with our services.

COURSE NAME	DUR.	DESCRIPTION
Alibaba Cloud Landing Zone Bootcamp	14.0 hrs	<ul style="list-style-type: none"> Learn about Alibaba Cloud's Landing Zone solution and how it helps enterprises and business create a secure environment to ensure a smooth migration experience Discuss and trade ideas with Alibaba Cloud trainers and solution architects
Cloud Fundamental Products Migration	14.0 hrs	<ul style="list-style-type: none"> Learn how to perform server migration, database migration, and storage migration using Alibaba Cloud solutions Understand the principles, best practices, and implementation methods of cloud migration
Container Service Operation and Management	9.0 hrs	<ul style="list-style-type: none"> Become acquainted with the various operational and configuration aspects of Alibaba Cloud Container Service and Container Registry products Learn to select storage plug-ins for Alibaba Cloud storage products and container services Know the configuration techniques for Alibaba Cloud network products, focusing on VPC
Big Data Analyst Bootcamp	6.0 hrs	<ul style="list-style-type: none"> Gain knowledge of Alibaba Cloud's big data tools that support data cleaning, analysis, development, and visualization Learn advanced data processing techniques using DataWorks and PAI Gain a broader understanding of data warehouse architecture
Big Data Engineer Bootcamp	6.0 hrs	<ul style="list-style-type: none"> Learn how to use DataWorks and MaxCompute for data development and workflow management Learn how to export data to other systems, such as AnalyticDB, for ad-hoc queries and real-time analysis

For pricing information, bookings, or general inquiries about Alibaba Cloud training sessions, contact us at int1_training@list.alibaba-inc.com

CLASSROOM TRAINING

The Alibaba Cloud Academy provides 40+ instructor-led classroom training courses, which brings a group of people together to collectively learn about Alibaba Cloud. These courses focus on delivering interactive sessions (both online and offline) to enhance the learning experience.

Our classroom training is driven by a personalized approach that meets the unique needs of each organization. The training courses cover a wide range of topics, including Cloud Computing, Big Data, Security, and Networking, and are designed to equip participants with the necessary skills to succeed in their roles.

FOUNDATIONAL COURSES

COURSE NAME	DUR.	DESCRIPTION
Alibaba Cloud Technical Operations - Basic Products	7.0 hrs	<ul style="list-style-type: none"> Learn how to deploy and manage Alibaba Cloud's basic products, such as ECS, OSS, SLB, and RDS Understand the fundamentals of cloud computing architecture
Alibaba Cloud Technical Operations - Advanced Products	7.0 hrs	<ul style="list-style-type: none"> Learn how to deploy, operate, and manage Alibaba Cloud's advanced products in Compute, Storage, Networking, and Security domains Become familiar with the fundamentals of cloud architecture
Alibaba Cloud Network Solutions	7.0 hrs	<ul style="list-style-type: none"> Understand the core functions of Alibaba Cloud networking solutions, including VPC, SLB, NAT Gateway and EIP Learn how to overcome cross-border connectivity issues with Alibaba Cloud networking solutions
Alibaba Cloud Security Solutions	7.0 hrs	<ul style="list-style-type: none"> Learn the fundamental concepts and best practices of cloud security Fully understand Alibaba Cloud security offerings, including SecurityCenter, Key Management Service, Anti-DDoS, and Web Application Firewall
Alibaba Cloud Database Solutions	7.0 hrs	<ul style="list-style-type: none"> Get complete knowledge of Alibaba Cloud's database offerings, including ApsaraDB RDS, PolarDB, and Redis Learn how to use Alibaba Cloud database products for diverse data processing scenarios
Alibaba Cloud Migration Solutions	7.0 hrs	<ul style="list-style-type: none"> Learn how to migrate data from on-premises data centers or other cloud vendors to Alibaba Cloud Develop a solid understanding of Alibaba Cloud migration solutions Gain an understanding on how to migrate applications, and structured and unstructured data

ADVANCED COURSES

COURSE NAME	DUR.	DESCRIPTION
DevOps on the Cloud	7.0 hrs	<ul style="list-style-type: none"> Understand the history, core principles, and best practices of DevOps Understand the principles and tools used for CI/CD on the cloud, including Jenkins, Ansible, Terraform, and more Get familiar with cloud native services such as ACK, ACR, and more
Alibaba Cloud Big Data Architecture	7.0 hrs	<ul style="list-style-type: none"> Learn about Alibaba Cloud's big data solutions, including E-MapReduce and MaxCompute Understand the best practices of data integration, development, data quality control, data security, and data management on the cloud
Alibaba Cloud MaxCompute & DataWorks Deep Dive	14.0 hrs	<ul style="list-style-type: none"> Acquire skills for performing extensive data processing using MaxCompute and DataWorks Become familiar with several critical topics, such as cloud cost optimization, data security, data quality checking, and API development Learn how to use QuickBI and DataV for data visualization

ADVANCED COURSES (CONT.)

COURSE NAME	DUR.	DESCRIPTION
Alibaba Cloud E-MapReduce	7.0 hrs	<ul style="list-style-type: none"> Understand the advantages of E-MapReduce (EMR) over self-built Hadoop Learn how to use EMR to create, configure, manage, and scale Hadoop clusters on the cloud Learn data import and data development using Sqoop and Hive
Alibaba Cloud RealTime Compute	7.0 hrs	<ul style="list-style-type: none"> Learn how to build high-speed, high-throughput Flink pipelines on the cloud using Realtime Compute Become familiar with Alibaba Cloud stream computing best practices Understand how Flink integrates with other tools, such as Kafka and DataV
Alibaba Cloud Machine Learning and AI	7.0 hrs	<ul style="list-style-type: none"> Understand the basic and advanced concepts of AI and machine learning technology Learn how to build Machine Learning and AI Systems using Alibaba Cloud MaxCompute, DataWorks, and PAI Know the core features of Alibaba Cloud Machine Learning Platform for AI (PAI)
Enterprise Database and Application Cloud Migration Best Practices	7.0 hrs	<ul style="list-style-type: none"> Learn how to transfer Oracle databases and applications to the cloud using Alibaba Cloud solutions Develop a solid grasp of Alibaba Cloud enterprise database and application migration best practices Understand the features of Alibaba Cloud's heterogeneous database migration tool
Alibaba Cloud PolarDB Administration	7.0 hrs	<ul style="list-style-type: none"> Gain a comprehensive understanding of PolarDB architecture and features Learn how to perform PolarDB database O&M, including performance diagnosis, optimization, troubleshooting, and backup and restoration Understand the differences between PolarDB and Oracle database
Data Transmission Service Best Practice	7.0 hrs	<ul style="list-style-type: none"> Understand the features, practical scenarios, and migration principles of Alibaba Cloud Data Transmission Service (DTS) Enhance your overall understanding of the Alibaba Cloud database migration solutions
Alibaba Cloud Container Service on Kubernetes Technical Essentials	7.0 hrs	<ul style="list-style-type: none"> Understand the fundamental concepts of Docker and Kubernetes Learn the advantages of Alibaba Cloud Container Service for Kubernetes (ACK) over self-built Kubernetes cluster Gain practical knowledge of ACK and Alibaba Cloud Container Registry (ACR)
Alibaba Cloud Container Service on Kubernetes Best Practices	7.0 hrs	<ul style="list-style-type: none"> Understand the best practices and advantages of Alibaba Cloud Container Service and Registry Service Learn how to manage containers in multi-cloud/hybrid cloud Gain practical knowledge of cloud native application deployment automation with Helm and Terraform

OPERATIONS & MANAGEMENT COURSES

COURSE NAME	DUR.	DESCRIPTION
IT Governance on Alibaba Cloud	7.0 hrs	<ul style="list-style-type: none"> Learn the principles, frameworks, benefits, and challenges of cloud IT governance Understand the best practices of account management, resource management, network design, cost control, and security compliance on Alibaba Cloud
Alibaba Cloud Products Operation and Management	14.0 hrs	<ul style="list-style-type: none"> Develop a solid understanding of O&M best practices of Alibaba Cloud public cloud products Get practical knowledge of Alibaba Cloud O&M tools, including ActionTrail, Log Service, OSS, and Cloud Config

For pricing information, bookings, or general inquiries about Alibaba Cloud training sessions, contact us at intl_training@list.alibaba-inc.com

E-LEARNING & ONLINE TRAINING

Alibaba Cloud Academy offers a comprehensive online learning platform with over 300 e-learning courses (of which 180+ are free-of-charge), including Clouder, Specialty, and professional exam preparation courses. Our on-demand e-learning courses complement the classroom training courses led by Alibaba Cloud Academy experts and help deepen your cloud computing knowledge and achieve your career goals.

CLOUDER COURSES

COMPREHENSIVE COVERAGE IN ALL SORTS OF FIELDS

Obtain a Clouder certificate by watching a 30-60 minute video and completing a simple knowledge validation test

SPECIALTY COURSES

COURSE NAME	DUR.	DESCRIPTION
Networking Specialty	10.0 hrs	<ul style="list-style-type: none"> Learn how to set up a cloud server using Alibaba Cloud solutions Enhance your proficiency in cloud connectivity and earn a professional certificate to demonstrate your expertise in the field of cloud networking
Big Data Specialty	10.0 hrs	<ul style="list-style-type: none"> Learn various aspects of the Big Data field and get certified as a Big Data Professional Get first hands-on training in using Alibaba Cloud big data solutions, such as MaxCompute and Quick BI, to process, analyze, and manage large volumes of data on the cloud
Machine Learning Specialty	10.0 hrs	<ul style="list-style-type: none"> Gain a deep understanding of end-to-end machine learning services, including data processing, feature engineering, model training, prediction, and evaluation Learn how to use Alibaba Cloud's Platform for AI to deliver such cloud services
Cloud Migration Specialty	10.0 hrs	<ul style="list-style-type: none"> Learn how to migrate your IT infrastructure to Alibaba Cloud Become familiar with cloud server management, structured and unstructured data migration, and Alibaba Cloud migration solutions
Relational Database Specialty	10.0 hrs	<ul style="list-style-type: none"> Understand the functions of ApsaraDB RDS and PolarDB database systems Gain hands-on experience through practical training to carry out day-to-day database operations on Alibaba Cloud effectively
NoSQL Database Specialty	10.0 hrs	<ul style="list-style-type: none"> Learn about the features and applicable scenarios of Alibaba Cloud NoSQL database products, including Redis, MongoDB, HBase, and Cassandra Learn how to handle daily database operational tasks on the cloud using DTS and DBS

HANDS-ON LABS

Alibaba Cloud Academy provides online hands-on labs to help you gain practical knowledge of Alibaba Cloud products in a secure environment at reduced costs. Learners can visit our hands-on lab website and select the desired lab to test and run the Alibaba Cloud products and solutions in a simulated lab environment. They can choose a particular lab based on multiple filters, such as user roles, difficulty levels, operational scenarios, and solution areas. Our hands-on labs fully complement our instructor-led classroom training courses, allowing learners to test their theoretical knowledge acquired during classroom sessions.

*Each lab session costs a small fee and lasts 1.5 to 3 hours.

250+ exciting labs	10+ learning paths that simulate real-world scenarios	Secure & flexible online learning environment	Step-by-step guides guiding you to complete each lab
------------------------------	---	---	--

ILLUMINATING THE PATH TO CLOUD EXCELLENCE

COMPREHENSIVE LEARNING PATHS FOR BUSINESSES, PARTNERS, INDIVIDUALS, AND MORE

Making it easy to become an Alibaba Cloud expert

At Alibaba Cloud, we firmly believe that professional development is a journey involving multiple steps, such as skill development, training, and validation. Organizations require employees with solid cloud skills to realize their business transformation goals. Individuals, in contrast, need quality training and learning support to validate their cloud expertise and advance their careers. Hence, the learning path for every individual is entirely different and depends on their own circumstances and experience with cloud technologies. In response to this growing need, we provide comprehensive cloud computing learning paths for our customers and partners, including Key Accounts, Channel Partners, Independent Software Vendors (ISVs), Managed Service Partners (MSPs), Small and Mid-Sized Enterprises (SMEs), and Individual Developers. These learning paths serve as a blueprint for our customers and partners to build and validate their advanced technical skills in cloud computing and accelerate their journey to cloud excellence. _

FOR KEY ACCOUNTS

Our role-based learning paths for our key account partners help their employees choose relevant Alibaba Cloud online training and certification courses based on their career path and existing skill set.

This helps them improve their overall cloud computing knowledge, skills, and competencies, and ultimately obtain industry recognized certifications.

MANAGEMENT TEAM (BY EWTP)

LEARNING PATH	VALUE PROPOSITION	COURSE CONTENTS
Business Reform Management	Focusing on the digital economy, industry insight, business scenario analysis, and cross-border businesses, these courses empower key account partners to improve their strategic decision-making ability, improve leadership skills, and accelerate the digital transformation of their business.	<ul style="list-style-type: none"> China's Rapid Ascent: How Digital Technology is Propelling the Nation Forward Decoding the Keys to the Success of the Farmer-to-Consumer (F2C) Model in the Global Context Redesign Work in Global Market Alibaba Story Mission, Vision and Values

WHAT EVERYONE'S BEING SAYING

ALIBABA CLOUD'S TRAINING PROGRAMS BRING DIGITAL EXCELLENCE TO INSTITUTIONS WORLDWIDE

Making cloud computing and AI education more accesible

We know that us advertising our strengths and offerings is just blowing our own horns. Why not listen to what everyone has to say about our programs and decide for yourself? We're always happy to share our customer experiences.

"This impeccable program gives our students a chance to learn from some of the most talented professionals in the industry and gain insights into the latest trends and developments, equipping themselves with real-world skills."

Professor Hongbin Cai
Dean and Chair of Economics
HKU Business School

"Leveraging Alibaba Cloud Academy, BPT has fostered a highly skilled technical team, both in pre-sales and post-sales capacities. Academy has equipped us to serve our customers that hail from various backgrounds, expanding our market reach and enhancing our business growth."

Ryandika Putra
Team Leader, Technical Sales Specialist
Bule Power Technology

"The comprehensive learning materials available on the Alibaba Cloud Academy portal are excellent. The classes and hands-on labs helped me understand difficult cloud concepts easily."

Justin Rivera
Manager
Technology and Product Solution Group
VST ECS Philippines

"Alibaba Cloud Academy training sessions are incredibly beneficial as they provide real-world use cases and expert insights. These training courses equipped me with invaluable skills and knowledge relevant to my company's needs."

Yohana Polin Simatupang
Senior Software Engineer
DANA

"As a university partner to AAEP, we have been offered a package of teaching courseware for free to gain extra industry knowledge and use them as a teaching aid."

Ts Dr Michael Cheng Wai Khuen
Assistant Professor
Faculty of ICT
UTAR
