Overview

Documentation 

Alibaba Cloud Express Connect is a convenient and efficient network service. The product provides a fast, stable, secure and private or dedicated network communication between different cloud environments, including VPC intranet intercommunication and dedicated leased line connection across regions and users.

Benefits

Dedicated Leased Line Connection Multi-Region Access
Each of the regions.

VPC Intercommunication
High Bandwidth: Enjoy 10Gbps or higher VPC intercommunication bandwidth.
Cross Region: Supports VPC interconnect in different regions with non-overlapping CIDR.

Flexibility
Independent Access: Choose a leased line from a carrier for independent access to Alibaba Cloud.

Purchase On Demand
Activate in real time and pay by month.
Provides free bandwidth with the provisioned virtual devices at affordable prices.

Customer Testimonials

TwoSigmas uses Alibaba Cloud CDN services in conjunction with Express Connect to enhance user experience and deliver high quality, low latency live streaming and on-demand broadcasts to a large number of concurrent users.

Express Connect not only offered us a commendable solution to fix some of our existing networking problems but also helped us remove the jump server-ECS HPC Support to access public networks directly.
